

NONSTOP Traffic through North Midtown

The solid line shows a **nonstop** route from Oregon Expressway to Loma Verde and the dashed lines show alternate **nonstop** routes to El Carmelo School and Hoover Park.

Neighborhood residents and others use this route (or parts of it) to bypass Midtown when driving to JLS Middle School, Mitchell Park or other south Palo Alto locations.

This preferred route adds both volume and speed to the school traffic funneling through the Waverley/El Dorado intersection.
